PROFILE

Motivated MERN Stack Development Intern with practical experience building full-stack web applications using MongoDB, Express.js, React, and Node.js. I have a solid understanding of REST APIs, authentication, MVC patterns, and Git version control. I am passionate about writing clean, efficient code and thrive in collaborative environments. I am looking for opportunities to apply my technical skills while contributing to impactful products and expanding my industry knowledge. I am eager to learn from real-world development environments and contribute to meaningful projects while growing as a full-stack developer.

SKILLS

Programming Languages & Core Technologies : *HTML5 , CSS3 , JavaScript (ES6+)*

Frameworks & Libraries : *React.js , Node.js , Express.js , React Router , Redux / Context API , Multer , Socket.io , JWT (Json Web Token) , Nodemailer (specific libraries/tools for functionality like payments, file uploads, real-time comms, security, and email)*

Databases : *MongoDB*

Tools & Platforms : *Git , GitHub , VS Code*

Concepts & Architecture : *Middleware & API structure , RESTful APIs , JSON / Axios / Fetch API , MVC architecture*

PROFESSIONAL EXPERIENCE

MERN STACK Development Intern

Synnefo Solutions

- Built internal web tools and client-facing applications using React and Node.js
- Collaborated with design and QA teams to deliver pixel-perfect, bug-free UIs
- Integrated RESTful APIs and managed MongoDB schemas
- Improved performance of several legacy components through refactoring

O4/2025 – Present

PROJECTS

STUDENT MANAGEMENT SYSTEM

Tools used : *HTML , CSS , Javascript , Node.js , Mongodb .*

Repo : <https://github.com/AjeeshaShaji/mvcbook.git>

- Developed a Student Management System to manage student-related book records.
- Implemented CRUD operations for adding, editing, deleting, and viewing book details.
- Integrated search and filter functionality for efficient data retrieval.
- Designed a clean, user-friendly interface to improve data organization and accessibility.

E-COMMERCE WEBSITE

Tools used : HTML , CSS , Javascript , Node.js , Express , MongoDB .

Repo : <https://github.com/AjeeshaShaji/ecommers.git>

- Developed a role-based e-commerce platform with separate seller and buyer functionalities.
- Implemented secure authentication, REST APIs, and MongoDB schemas for users and products.
- Enabled sellers to add, edit, and delete products, and buyers to search and browse products.
- Built a responsive React UI and a Node.js/Express backend following MVC architecture.

EXPENSE TRACKER

Tools used : HTML , CSS , Javascript , Express , MongoDB, React .

Repo : <https://github.com/AjeeshaShaji/Expense.git>

- Developed a Mini Expense Splitter application using React.
- Implemented functionality to add, view, and delete expenses.
- Displayed real-time total expense calculation with automatic updates.
- Used localStorage to persist expense data across browser refreshes.
- Designed a simple and user-friendly interface for easy expense management.
- Demonstrated strong understanding of React hooks, state management, and data persistence.

EDUCATION

Bachelor of Computer Application

University of Kerala

10/2022 –

04/2025 kerala,
India

LANGUAGES

Malayalam, English

ADDITIONAL STRENGTH

- Quick learner
- Strong problem-solving skills
- Team collaboration and communication
- Attention to detail
- Adaptable and deadline-oriented
